APPLICATION FOR STANDARD PLAN APPROVAL
MINOR LINEAR DISTURBANCES

Approval of this Standard Sediment and Stormwater Plan may be granted if all of the following criteria are met:

1. Disturbance will be linear, as in utility construction, having a maximum width of disturbance of 20 feet, and a maximum length of 2.0 miles; including access, staging and equipment lay down areas.
1. No greater than 1.0 acre will be disturbed at any one time throughout the course of construction.
2. Within the disturbed area, the pre-development land use is not classified as "wooded" based on the 2007 Delaware Land Use/Land Cover data.
3. Land cover will be restored to the pre-construction hydrologic condition. Pre-construction grading and surface cover will remain after construction. No new impervious surfaces will be created as part of the construction.

Site Information

Site Location (911 Address or road name with distance to nearest intersection): _____

Width of disturbed area (feet): _____

Total Disturbed Acres (nearest 0.1ac): _____

Length of disturbed area (feet): _____

Proposed Impervious Area (square feet): _____

Length of disturbed area (miles): _____

Wooded area to be cleared: _____

Applicant Information

Owner: _____

Applicant: _____

Mailing Address: _____

Applicant Phone: _____

Applicant Certification

I, the undersigned, certify that the information supplied on this Application for Standard Plan Approval is accurate, the proposed land disturbing activity meets the criteria established, and all conditions of this Standard Plan Approval will be met by the applicant, contractor, and owner during construction and post construction.

Applicant Signature: _____ Date: _____

Applicant Printed Name: _____ Title: _____

Fees

\$500 for up to 1 mile. \$1,000.00 for 1.1 – 2 miles. Make checks payable to Kent Conservation District.

Conditions

1. Stabilization with seed and mulch or seed and stabilization matting will occur daily so that no greater than one acre will be disturbed at any one time. *Specific stabilization recommendations may be found in the Delaware Erosion and Sediment Control Handbook, 3.4.3 Standard and Specifications for Vegetative Stabilization.*
2. Construction site stormwater management best management practices will be used.
3. Construction through sensitive areas, including stream and wetland crossings, will be accomplished through directional drilling, with land disturbance happening outside of the sensitive area.
4. Construction projects exceeding 1.0 acre of total disturbance require submittal of a Notice of Intent (NOI) for Stormwater Discharges Associated with Construction Activity. A plan fulfilling Stormwater Pollution Prevention Plan (SWPPP) requirements must be developed to obtain general permit coverage for Stormwater Discharges Associated with Construction Activity.
