APPLICATION FOR STANDARD PLAN APPROVAL
STORMWATER MANAGEMENT FACILITY MAINTENANCE

Approval of this Standard Sediment and Stormwater Plan may be granted if land disturbance is for maintenance of a stormwater management facility having a design on file with The Kent Conservation District Sediment and Stormwater Program.

Site Information

Site Location including Approved Sediment and Stormwater Plan Name: _____

SWM Facility/Facilities to be maintained: _____

Plan Approval Number: _____ Disturbed Acres (nearest 0.1ac): _____

Applicant Information

Owner: _____ Applicant: _____

Mailing Address: _____ Mailing Address: _____

Owner Phone: _____ Applicant Phone: _____

Applicant Certification

I, the undersigned, certify that the information supplied on this Application for Standard Plan Approval is accurate, the proposed land disturbing activity meets the criteria established, and all conditions of this Standard Plan Approval will be met by the applicant, contractor, and owner during construction and post construction.

Applicant Signature: _____ Date: _____

Applicant Printed Name: _____ Title: _____

Fees

\$0 when performed as directed by KCD, \$500.00 when performed to correct a plan violation.

Approval Information (for office use only)

Approval # _____

Fee Paid: \$ _____

Check # _____ Cash

Conditions

1. Construction will follow an Operation and Maintenance Plan in place for the stormwater management facility if one exists.
2. Following maintenance the stormwater management facility elevations will be returned to design elevations.
3. Construction site stormwater management best management practices will be used.
4. Construction projects exceeding 1.0 acre of total disturbance required submittal of a Notice of Intent (NOI) for Stormwater Discharges Associated with Construction Activity. A plan fulfilling Stormwater Pollution Prevention Plan (SWPPP) requirements must be developed to obtain general permit coverage for Stormwater Discharges Associated with Construction Activity.

Stabilization Conditions

1. Following initial soil disturbance or redisturbance, temporary or permanent stabilization with seed and mulch shall be completed within 14 calendar days to the surface of all disturbed areas not actively under construction.
2. Specific stabilization recommendations may be found in the Delaware Erosion and Sediment Control Handbook, 3.4.3 Standard and Specifications for Vegetative Stabilization.
